SOW LAWNS THIS FALL

To build a new lawn or to repair an old one—the frequent rains, the shorter days, and the cool nights of fall are ideal. Grass seed germinates quickly and grows vigorously. In planting Connecticut lawns, use CONNECTICUT SEALED GRASSES of guaranteed analysis.

We carry these grasses exclusively. Only grasses that come up to Connecticut's rigid standards can receive the State seal.

For quick vigorous growth (new seeding), sow 1 pound of grass seed to 200 square feet. For re-seeding old lawns, 1 pound to 400 square feet.

GOLD SEAL Recommended for reseeding old turf and new seeding where careful preparation and extra care will be taken. Composed of the very highest quality Kentucky Blue Grass, Chewings Fescue, Highland Bent and Red Top, in proper proportion to make the finest velvety turf.

1 lb. \$1.45 5 lb. \$6.45
25 lb. \$31.25 100 lb. \$119.00

BLUE SEAL Our most popular high grade mixture, best for general use. Composed of the same grasses as our Gold Seal mixture with the addition of White Dutch Clover and Domestic Rye Grass. Grows quickly and produces a really fine dark green permanent lawn. 1 lb. \$1.25 5 lb. \$5.50
25 lb. \$26.50 100 lb. \$100.00

RED SEAL A mixture of good quality at a moderate price. Contains all of the grasses in the higher priced mixtures, but in different proportion. May be planted with confidence that an excellent lawn will result.

1 lb. \$1.15 5 lb. \$4.95
25 lb. \$23.75 100 lb. \$89.00

Terrace Mixture

(BLUE SEAL GRADE) Vigorous deep rooted grasses, tolerant of parched soil and traffic. 1 lb. \$1.25 5 lb. \$5.50
25 lb. \$26.50 100 lb. \$100.00

for SHADY PLACES

GOLD SEAL SHADY Our best mixture, adapted to ordinary shade and dry terraces when exceptionally fine-leaved turf is desired.

1 lb. \$1.50 5 lb. \$6.75
25 lb. \$32.75 100 lb. \$125.00

BLUE SEAL SHADY An excellent mixture for shady places and dry lawns. Grows rapidly and develops into a hardy long lived turf. Best for general use. 1 lb. \$1.25 5 lb. \$5.50
25 lb. \$26.50 100 lb. \$100.00

Separate Grasses

HIGHLAND BENT (*Agrostis canina tenuis*.) The grass used in putting greens and the most practical bent grass to use in lawn mixtures. It makes a firm, durable turf.

1 lb. \$1.80 5 lb. \$8.25 10 lb. \$16.00

CHEWINGS FESCUE (*Festuca rubra* var. fallax) Its needle-thin, dark green leaves make a handsome lawn. It will tolerate shade and thrive on dry soils, and is best used in mixture with other grasses.

1 lb. \$1.25 5 lb. \$5.75 10 lb. \$11.00

KENTUCKY BLUEGRASS (*Poa pratensis*) Best of the truly permanent lawn grasses, it is fine textured and deep emerald green. Rather slow to become established, it is the basic seed for lasting lawns.

1 lb. \$1.20 5 lb. \$5.50 10 lb. \$10.00

MERION BLUEGRASS A wonderful bluegrass. It holds its fine green color through the hottest weather. It is drought resistant and tolerant of close mowing. Seed is still very scarce. 1 lb. per 1000 sq. ft. will get it started.

¼ lb. \$1.50 ½ lb. \$2.50 1 lb. \$5.00

RED TOP (*Agrostis alba vulgaris*) A fine grass, relatively short lived (under lawn conditions), excellent as a nurse crop mixed with the slower developing perennial grasses.

1 lb. \$.90 5 lb. \$4.00 10 lb. \$7.50

RYE GRASS COMMON (*Lolium italicum hybridum*). Good for a quick cover crop. Excellent to hold banks while the hardy grasses become established.

1 lb. \$.40 5 lb. \$1.50 10 lb. \$2.75

WILD WHITE CLOVER (*Trifolium Repens* Var.) This clover may eventually supersede White Dutch. It is more persistent and will stand extremely close cropping. It blossoms

less than ordinary white clover. A grand aid in combatting crabgrass. One quarter pound is sufficient to mix with 5 lbs. grass seed.

¼ lb. 75¢ ½ lb. \$1.25 1 lb. \$2.25

TULIPS!

The tulips offered on these first 3 pages are all large May flowering, tall (20"-34") tulips. Since these tulips (which include the Cottage, Darwin, Breeder and others) all flower at approximately the same time and so can be planted together effectively, we separate

them only in color groups for easier selection. The code letter following each variety indicates the relative earliness in flowering and the number, the usual height in inches. We furnish top size, plump bulbs in every case.
